

Good Morning beautiful people,as the Governor Codey would say.

We all know why we are here today, but before I get to the highly anticipated main event of the morning, on behalf of United and the Governor codey we would like to say a few words.

Thank you for the continued support in our city. United is the city for the people and by the people, therefore without you there would be and will be no city of United. United is strictly designed to accommodate each and every lifestyle that enters the city and that is what is special about it. So with this being the final briefing, Governor Codey would just like to make it apparent to the citizens that without you there would be no us and because of that he is thankful. Because of course...United we plan and United we stand.

With that being said I would like to introduce our final three d model of the city United and explain each and every component to it. So drumroll please

\*brings out model"

-talk about how the plans were made and how we added streets to the plan because originally they weren't there and then talk about what building is what the youth center, the school, the police station, the farm, the city capital, the hospital public housing
